A1

1. Which of the following is correct?

(a) $m^4 - 256 = (m^2 + 16)(m^2 - 16)$

(b) $m^4 - 256 = (m + 4i)(m - 4i)(m + 4)(m - 4)$

(1) a only (2) b only

(3) both a and b (4) neither a nor b

2. Which of the following is not a quadratic equation?

(1) $(x - 2)^2 + 1 = 2x + 3$ (2) $x(x + 1) + 8 = (x + 2)(x - 2)$

(3) $x(2x + 3) = x^2 + 1$ (4) $(x + 2)^3 = x^3 - 4$

3. A person has 2 parents, 4 grandparents, 8 great grandparents and so on. The number of his ancestors during the ten generations preceding his own is

(1) 1512 (2) 4086

(3) 1023 (4) 2046

4. If the co-efficients of three consecutive terms in the expansion of $(1 + a)^n$ are in the ratio 1 : 7 : 42, then the value of n is

(1) 55 (2) 50

(3) 45 (4) 60

5. The number of different 8-letter arrangement that can be made from the letters of the word DAUGHTER so that all vowels do not occur together is

(1) 36000 (2) 43200

(3) 64800 (4) 53600

6. The area of a triangle whose vertices are (3, 8) (–4, 2) and (5, 1) is

(1) 30.5 (2) 61

(3) 40.5 (4) 81

7. Let A, B and C are the square matrices of the order $n \times n$. Then which of the following is not correct?

(1) $A + B = B + A$ (2) $(A + B) + C = A + (B + C)$

(3) $AB = BA$ (4) $(AB)C = A(BC)$

8. Let $A = \{1, 2, \{3, 4\}, 5\}$, then which of the following is correct?

(1) $\{3, 4\} \subset A$ (2) $\{\{3, 4\}\} \subset A$

(3) $\{3, 4\} \in A$ (4) $\{3, 4\} \notin A$

9. The angle between the line through the points (4, 7, 8), (2, 3, 4) and the line through the points (–1, –2, 1), (1, 2, 5) is

(1) $\pi/3$ (2) $\pi/2$

(3) $\pi/6$ (4) 0

10. The mid point of the line joining the points (1, 4, 8) and (3, 6, 10) is

(1) (2, 5, 9)
(2) (1, 1, 1)
(3) (4, 10, 18)
(4) (2, 2, 2)

11. The equation of the circle which passes through the points (2, –2) and (3, 4) and whose centre lies on the line $x + y = 2$ is

(1) $(x - 0.7)^2 + (y - 1.3)^2 = 12.58$
(2) $(x + 0.7)^2 + (y + 1.3)^2 = 12.58$
(3) $(x - 0.7)^2 + (y + 1.3)^2 = 12.58$
(4) $x^2 + y^2 = 5$

12. The equation of the ellipse, with major axis along the x-axis and passing through the points (4, 3) and (–1, 4) is

(1) $15x^2 + 7y^2 = 247$
(2) $15x^2 - 7y^2 = 247$
(3) $7x^2 - 15y^2 = 247$
(4) $7x^2 + 15y^2 = 247$

13. The equation of the hyperbola where foci are $(0, \pm 12)$ and the length of the latus rectum is 36 is

(1) $x^2 - y^2 = 108$
(2) $x^2 - 3y^2 = 108$
(3) $3y^2 - x^2 = 108$
(4) $x^2 + 3y^2 = 108$

14. In Boolean algebra, which of the following is correct?

(1) $x \wedge y = x' \vee y'$
(2) $x \vee y = x' \wedge y'$
(3) $x \wedge (x \vee y) = x$
(4) $x \vee 1 = x$

15. In Boolean algebra, simplified form of $(x \wedge y) \vee x' \vee y'$ is

(1) 1
(2) 0
(3) y
(4) x

16. Which of the following statement/statements is/are true?

(a) $x \vee y \wedge x' \wedge y' = (x' \wedge y) \vee (x \wedge y')$

(b) $x \vee y \wedge y \vee z \wedge z \vee x = (x \wedge y) \vee (y \wedge z) \vee (z \wedge x)$

Codes:

(1) a only
(2) b only
(3) both a and b
(4) neither a nor b

17. Which of the following is/are true?

(a) $\cos 2x = \cos^2 x + \sin^2 x$

(b) $\cos 2x = \dfrac{1 - \tan^2 x}{1 + \tan^2 x}$

Codes:

(1) a only
(2) b only
(3) both a and b
(4) neither a nor b

A1

18. For any real numbers x and y, which of the following is/are correct?

(a) If $\sin x = \sin y$ then $x = n\pi + (-1)^n y$ where $n \in z$

(b) If $\tan x = \tan y$ then $x = n\pi + y$ where $n \in z$

Codes:

(1) a only

(2) b only

(3) both a and b

(4) neither a nor b

19. If $\text{Sin}x = \frac{3}{5}$, $\text{Cos}y = -\frac{12}{13}$ where x and y both lie in second quadrant, the value of $\text{Sin}(x + y)$ is

(1) $-\frac{56}{65}$

(2) $\frac{4}{5}$

(3) 5/13

(4) 56/65

20. The value of $\text{Sin}^{-1}\left(\text{Sin}\frac{3\pi}{5}\right)$

(1) $2\pi/5$

(2) $3\pi/5$

(3) $5/3\pi$

(4) $4\pi/5$

21. A bag contains 8 white and 6 red balls. The probability of drawing two balls of the same colour is

(1) $\frac{28}{91}$

(2) $\frac{15}{91}$

(3) $\frac{13}{91}$

(4) $\frac{43}{91}$

22. Two students Anil and Ashima appeared for an examination. The probability that Anil will qualify the examination is 0.05 and that Ashima will qualify the examination is 0.10. The probability that both will qualify the examination is 0.02. The probability that both will not qualify the examination is

(1) 0.13

(2) 0.87

(3) 0.98

(4) 0.15

23. The standard deviation of 8, 10, 12, 14, 16, 18, 20, 22, 24, 26 is

(1) 33

(2) 5.74

(3) 15

(4) 3.98

24. The lines of regression of y on x and x on y are available as $4x - 5y + 33 = 0$ and $20x - 9y = 107$ respectively. The co-efficient of correlation between x and y is

(1) 0.6

(2) 0.8

(3) 0.45

(4) 0.95

25. A frequency distribution of variable x with mean 42 and median 50 is
(1) positively skewed distribution
(2) negatively skewed distribution
(3) mesokurtic distribution
(4) platykurtic distribution

26. Viruses:
(a) are usually spread by downloading from public pages or copying the content from an infected hard disk or pendrive
(b) does not spread
Which of the following is/are correct?
(1) both a and b are correct
(2) only a is correct
(3) only b is correct
(4) neither a nor b is correct

27. Given the following statements:
S1: NAND and NOR are universal gates
S2: AND, OR, NOT are basic gates
Which of the following is the correct answer?
(1) S1: true and S2 : true
(2) S1: false and S2 : false
(3) S1: false and S2 : true
(4) S1: true and S2 : false

28. Select the correct arrangement in the decreasing order of size
(1) KB, MB, GB, Bit, Byte, Nibble
(2) Bit, Byte, Nibble, KB, GB, MB
(3) GB, MB, KB, Byte, Nibble, Bit
(4) MB, KB, GB, Nibble, Bit, Byte

29. Given the following lists:

List 1	List 2
(a) Input devices	(i) Floppy disks, Hard drives
(b) Memory devices	(ii) Keyboard, Microphone
(c) System software	(iii) Windows, Linux
(d) Operating system	(iv) Compiler, Assembler

Identify the correct match from the following:
(1) a – iv, b – iii, c – ii, d – i
(2) a – iii, b – iv, c – ii, d – i
(3) a – ii, b – i, c – iv, d – iii
(4) a – iii, b – ii, c – iv, d – i

30. The (a) memory is used to (b) the performance mismatch between the (c) memory and the (d).
The correct order of words in the above statement is
(1) (a) Main, (b) Increase, (c) Cache, (d) CPU Registers
(2) (a) Secondary, (b) Increase, (c) CPU Registers, (d) Main memory
(3) (a) Cache, (b) Decrease, (c) Main, (d) CPU Register
(4) (a) Cache, (b) Decrease, (c) Main, (d) Secondary memory

A1

31. Identify the correct answer from the given options:

(a) Mouse is a device which can be connected externally to a computer

(b) Left and Right buttons of the mouse have the same functionality

(c) The moving speed of the pointer on the screen is fixed

Codes:

(1) (a), (b) and (c) are true
(2) (a) is true, (b) and (c) are false
(3) (a) and (b) are true, (c) is false
(4) (a) and (c) are true, (b) is false

32. Consider the following statements with respect to internet:

S1 : A computer requires a correct IP address to access internet

S2 : Internet is a worldwide system of interconnected computer networks and electronic devices that communicate with each other using an established set of protocols

S3 : One of the biggest advantage of internet is a safe cyber space.

Which of the following is correct?

(1) S1 : True, S2 : True; S3 : True
(2) S1 : True, S2 : True; S3 : False
(3) S1 : False, S2 : True; S3 : True
(4) S1 : False, S2 : False; S3 : False

33. Which of the following statements is true with respect to a database?

(1) Collection of data or information without any organization

(2) Organized collection of data or information that can be accessed and updated

(3) Organized collection of data that cannot be updated

(4) Collection of data or information with proper organization

34. _____ is a method used to encode information into a format that can be used and understood by computer system.

(1) Data structure
(2) Data definition
(3) Data representation
(4) Data crunching

35. Match the following:

List 1	List 2
(a) 1024 bytes	(i) 1 gigabyte
(b) 1024 KB	(ii) 1 megabyte
(c) 1024 MB	(iii) 1 terabyte
(d) 1024 GB	(iv) 1 kilobyte

Codes:

(1) a – iv, b – iii, c – ii, d – i
(2) a – iv, b – ii, c – i, d – iii
(3) a – iii, b – ii, c – iv, d – i
(4) a – iv, b – iii, c – i, d – ii

36. Which among the following is correct about $85_{(10)}$ equivalent 4-bit BCD code?

(1) 0111 0110
(2) 1000 0101
(3) 1000 0011
(4) 0010 0101

37. With respect to Binary, Octal and Hexadecimal number systems:
S1: Octal and Hexadecimal representation offer compact representation than binary
S2: Binary numbers are fundamental in computing and are used at the lowest level in digital system
Which of the following is correct?
(1) Both S1 and S2 are true
(2) Both S1 and S2 are false
(3) S1 is true and S2 is false
(4) S2 is true and S1 is false

38. If negative members are stored in 2's complement form, then range of numbers that can be stored in 8 bits is _____
(1) – 127 to + 127
(2) – 127 to + 128
(3) – 128 to + 127
(4) – 128 to + 128

39. 53 in 2's complement form is _____.
(1) 1001011
(2) 001010
(3) 0110101
(4) 001011

40. Decimal equivalent of the $763.4_{(8)}$ is _____.
(1) 499.5
(2) 499
(3) 49.95
(4) 459.9

41. The magnitude of the binary number 10111011 in 1's complement and 2's complement representation are ____ and _____ respectively.
(1) – 69, – 68
(2) – 68, – 69
(3) – 59, – 58
(4) – 58, – 59

42. 1's and 2's complement of $-24_{(10)}$ in binary are _____ and _____.
(1) 100111, 101000
(2) 011000, 011001
(3) 101000, 100111
(4) 011001, 011000

43. If the random variable x has a probability distribution P (x) of the following form where k is a scalar

$$P(x) = \begin{cases} k & \text{if} \quad x = 0 \\ 2k & \text{if} \quad x = 1 \\ 3k & \text{if} \quad x = 2 \\ 0 & \text{otherwise,} \end{cases}$$

then the value of $P(x < 2)$ is
(1) $\frac{1}{6}$
(2) $\frac{2}{6}$
(3) $\frac{13}{6}$
(4) $\frac{1}{2}$

44. _____ is the most common security method with respect to using computers.

(1) Lock and key
(2) Key card systems
(3) Passwords
(4) Surveillance system

45. Given the following statements with respect to Operating System:

S1: Kernel is the heart of Operating System

S2: Operating System acts as an interface between user and computer

S3: Operating System is a hardware

Which of the following is correct?

(1) S1, S2 and S3 are correct
(2) S1 and S2 are correct and S3 is not correct
(3) S1, S2 and S3 are incorrect
(4) S1 is correct and S2 & S3 are incorrect

46. Which mode loads the minimal set of drivers when starting windows operating system?

(1) Safe mode
(2) Normal mode
(3) VGA mode
(4) Network support mode

47. Match the following:

List 1	List 2
(a) Open source Operating System	(i) Does not interact with the computer directly
(b) Multiprocessing Operating System	(ii) Processes data and events that have critically defined time constraints
(c) Real time Operating System	(iii) Source code is open to all
(d) Batch processing Operating System	(iv) Used to boost the performance of multiple CPUs in a single computer system

Codes:

(1) a – i, b – ii, c – iii, d – iv
(2) a – i, b – iv, c – ii, d – iii
(3) a – iii, b – iv, c – ii, d – i
(4) a – iv, b – iii, c – ii, d – i

48. Given the following information with respect to a multitasking Operating System:

S1: Enables a computer to execute multiple tasks or processes simultaneously.

S2: Increases the productivity of the machine if the tasks to be done are organised and carried out correctly.

S3: Supports only single user.

Which of the following is correct?

(1) Only S1 and S2 are correct and S3 is incorrect
(2) Only S1 and S3 are correct and S2 is incorrect
(3) Only S2 and S3 are correct and S1 is incorrect
(4) Only S1 is correct and S2 and S3 are incorrect

49. How is X related to Y?

A: X is Y's sister

B: Z is the father of X and Y.

(1) Statement A alone is sufficient to answer the question

(2) Statement B alone is sufficient to answer the question

(3) The data either in A or B are sufficient to answer the question

(4) The data given in both the statements together are not sufficient to answer the question

50. In a certain code '297' means 'clear blue sky'. Which number means 'sky'?

A: In that language '926' means 'clear blue colour'

B: In that language '175' means 'dark cloudy sky'.

(1) Statement A alone is sufficient to answer the question

(2) Statement B alone is sufficient to answer the question

(3) The data either in A or B are sufficient to answer the question

(4) The data given in both the statements together are not sufficient to answer the question

51. A train 125 m long passes a man running at 5 km/hr in the same direction in which the train is going in 10 seconds. The speed of the train is

(1) 45 km/hr

(2) 50 km/hr

(3) 54 km/hr

(4) 55 km/hr

52. The angle of elevation of a ladder leaning against a wall is 60° and the foot of the ladder is 4.6 m away from the wall. The length of the ladder is

(1) 2.3 m

(2) 4.6 m

(3) 7.8 m

(4) 9.2 m

53. A, B and C can do a piece of work in 20, 30 and 60 days respectively. In how many days can A do the work if he is assisted by B and C on every 3rd day?

(1) 12 days

(2) 15 days

(3) 16 days

(4) 18 days

A1

54. The difference between simple and compound interests compounded annually on a certain sum of money for 2 years at 4% per annum is Rs 1. The sum in ₹ is

(1) ₹625
(2) ₹630
(3) ₹640
(4) ₹650

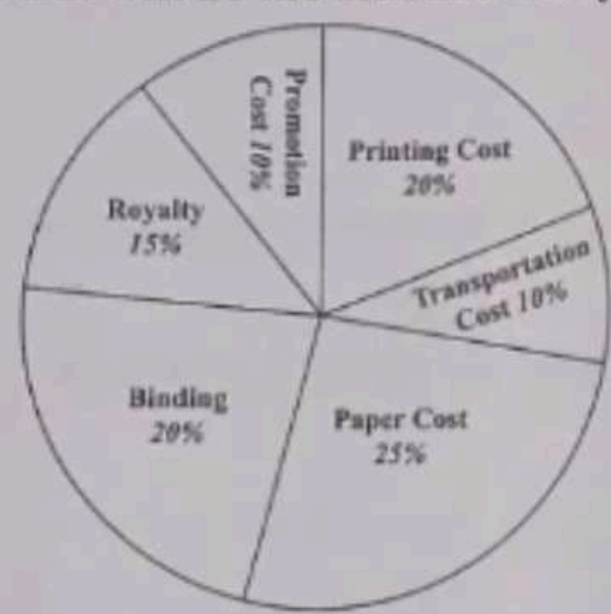
55. If selling price is doubled, the profit triples. Find the profit in percent

(1) $66\frac{2}{3}$
(2) 100
(3) $105\frac{1}{3}$
(4) 120

56. At 3:40, the hour hand and the minute hand of a clock form an angle of

(1) 120°
(2) 125°
(3) 130°
(4) 135°

57. The following pie-chart shows the percentage distribution of the expenditure incurred in publishing a book. If for a certain quantity of books, the publisher has to pay Rs. 30,600 as printing cost, then what will be the amount of royalty to be paid for these books?



(1) Rs. 19,450
(2) Rs. 21,200
(3) Rs. 22,950
(4) Rs. 26,150

58. Study the following table and answer the question: What is the average amount of interest per year which the company had to pay during this period?

Year	Interest on loans (in Lakh rupees)
1998	23.4
1999	32.5
2000	41.6
2001	36.4
2002	49.4

(1) 32.43 lakh rupees
(2) 33.72 lakh rupees
(3) 34.18 lakh rupees
(4) 36.66 lakh rupees

59. Statements: Some actors are singers. All the singers are dancers.

Conclusions:

A. Some actors are dancers

B. No singer is an actor

(1) only A follows
(2) only B follows
(3) either A or B follows
(4) neither A nor B follows

60. A: A huge truck overturned on the middle of the road last night.

B: The Police had cordoned off the entire area in the locality this morning for half of the day.

(1) Statement A is the cause and statement B is its effect

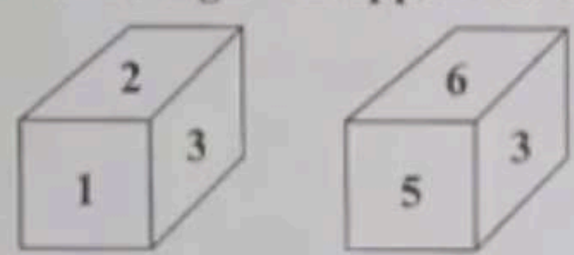
(2) Statement B is the cause and statement A is its effect

(3) Both Statements A and B are independent causes

(4) Both statements A and B are effects of some common cause

61. Two positions of dice are shown below:

Which digit will appear on the face opposite to the face with number 4?



(1) 3
(2) 5
(3) 6
(4) 2

62. The total of the ages of Amar, Akbar and Anthony is 80 years. What was the total of their ages 5 years ago?

(1) 60 years
(2) 65 years
(3) 50 years
(4) 55 years

63. In the series 53,53,40,40,27,27,....., What number should come next?

(1) 12
(2) 14
(3) 27
(4) 53

64. In the series 42, 40, 38, 35, 33, 31, 28 the next 2 terms are

(1) 25, 22
(2) 26, 23
(3) 26, 24
(4) 25, 23

65. What number should fill the blank in the series?

F2, ___, D8, C16, B32

(1) A16
(2) G4
(3) E4
(4) E3

A1

66. A and B invest in a business in the ratio 3:2. If 5% of the total profit goes to charity and A's share is Rs. 855, the total profit is

(1) Rs. 1425
(2) Rs. 1500
(3) Rs. 1537.50
(4) Rs. 1576

67. In options trading, what does the term "Strike Price" refer to?

(1) The current market price of the underlying asset
(2) The price at which the underlying asset can be bought or sold
(3) The price of the option contract itself
(4) The commission fee for executing the trade

68. Which of the following are critical factors for achieving sustainable competitive advantages in a business?

(i) Exploiting economies of scale.
(ii) Maintaining high levels of customer satisfaction and loyalty.
(iii) Frequent changes in business strategy.
(iv) Developing unique, valuable resources and capabilities.

Select the correct answer using the options given below:

(1) i, ii and iv only
(2) i, iii and iv only
(3) ii, iii and iv only
(4) i, ii, iii and iv

69. Consider the following pairs:

	Sectors	Companies
(i)	Private Sector Industries	Tata Iron and Steel Industries
(ii)	Public Sector Industries	Maruti Udyog Ltd
(iii)	Joint Sector Industries	Hindustan Aeronautics Ltd
(iv)	Co-operative Industries	Anand Milk Union Ltd
(v)	Cottage Industries	Basket weaving

Which of the above pairs are correctly matched?

(1) Only i, ii, iii and iv
(2) Only ii, iii, iv and v
(3) i, ii, iii, iv and v
(4) Only i, iv and v

70. Which of the following are crucial for industries to navigate uncertain economic condition and market disruptions?

(a) Diversifying revenue streams and expanding into new markets.
(b) Implementing cost-cutting measures and reducing operating expenses.
(c) Maintaining a rigid organizational structure to ensure stability.
(d) Proactively monitoring market trends and competitor activities.

Select the answer using the codes given below:

(1) a, b and d
(2) a, b, c and d
(3) a, b and c
(4) b, c and d

71. What does the term "Cabotage" refer to in the transportation industry?

(1) The transportation of goods or passengers across international borders

(2) The transportation of goods or passengers within a country

(3) The transportation of goods internationally by a domestic operator

(4) The leasing of foreign transport vessel for domestic use

72. Which of the following is/are not the functions of NCTE?

(a) Understanding surveys and studies relating to various aspects of teacher education and publish the result thereof.

(b) Recruiting qualified staff in the teacher education institutions.

(c) Laying down norms for any specified category of courses or trainings in teacher education.

(d) Creating job opportunities for the students who have completed teacher education programmes in the NCTE recognized institutions.

Choose the correct answer from the options given below:

(1) a and d only
(2) c and d only
(3) b and d only
(4) d only

73. Xiomi tied up with Foxconn to establish its plant in which of the following states of India?

(1) Andhra Pradesh
(2) Maharashtra
(3) Telangana
(4) Tamil Nadu

74. Which of the following statements about the vitamins are correct?

(a) Vitamin A and Vitamin B were discovered by Elmer McCollum.

(b) Deficiency of Vitamin D causes weak bones.

(c) Vitamin C was invented by Albert Szent-Gyorgyi.

(d) Deficiency of Vitamin B causes scurvy.

Select the correct answer using the codes given below:

(1) a, b and d
(2) b, c and d
(3) a, c and d
(4) a, b and c

75. The accidental death coverage of Pradhan Mantri Suraksha Bima Yojana (PMSBY) is

(1) Rs. One Lakh
(2) Rs. Two Lakhs
(3) Rs. Three Lakhs
(4) Rs. Four Lakhs

A1

76. Consider the following statements regarding the Health Belief Model (HBM).

(a) The Health Belief Model (HBM) is a framework for understanding how patients beliefs influence their health behaviors.

(b) HBM does not consider perceived barriers to taking health-related actions.

Which of the statements given above is/are correct?

(1) a only
(2) b only
(3) Both a and b
(4) Neither a nor b

77. Which term refers to the ability to turn ideas into action through creativity, innovation and risk-taking?

(1) Managerial skill
(2) Strategic planning
(3) Entrepreneurship
(4) Operational efficiency

78. Which aspect of the LEARN model is focused on collaboratively deciding on treatment?

(1) Listen
(2) Explain
(3) Recommend
(4) Negotiate

79. An inclusive workplace culture enhances employee satisfaction and retention by promoting diversity and equity.

Which of the following initiatives contribute to developing an inclusive workplace culture?

(a) Diversity training programmes

(b) Equal employment opportunity policies

(c) Performance-based incentives

(d) Flexible working hours

(e) Inclusive leadership practices

Select the correct answer from the codes given below:

(1) a, b and d
(2) b, c and e
(3) a, b, d and e
(4) a, c, d and e

80. Which of the following characteristics are essential for entrepreneurial success?

(a) Risk aversion

(b) Innovation and creativity

(c) Hierarchical decision-making

(d) Long-term stability

(e) Adaptability to market changes

Select the correct answer from the codes given below:

(1) b and e
(2) a, c and d
(3) b, d and e
(4) a, b and e

81. What role does cultural humility play in healthcare interactions?

(a) Mastery of medical procedures.

(b) Understanding personal biases.

(c) Compliance with hospital regulations.

(d) Efficient patient scheduling.

(e) Adherence to clinical guidelines.

Select the correct answer from the codes given below:

(1) b and e only
(2) a, c and d only
(3) b, c and e only
(4) a, b and d only

82. Match the following:

List I (Types of ventures)		List II (Characteristics)	
a.	Scalable Startup	i.	Aimed at addressing social issues and community needs
b.	Small Business	ii.	High growth potential, often technology-driven
c.	Social Enterprises	iii.	Local businesses with limited growth potential
d.	Large company	iv.	Established firms expanding through innovation

Choose the correct answer from the options given below:

(1) a – iii, b – iv, c – ii, d – i
(2) a – i, b – ii, c – iii, d – iv
(3) a – ii, b – iii, c – i, d – iv
(4) a – iv, b – iii, c – i, d – ii

83. Which factors contribute to fostering an entrepreneurial ecosystem?

(a) Access to venture capital

(b) Government regulations

(c) Supportive mentorship programs

(d) Competitive market conditions

(e) Technological advancements

Select the correct answer from the codes given below:

(1) a, c and e
(2) b, c and d
(3) a, b and d
(4) b, d and e

A1

84. Which of the following factors can directly affect the value of a bond?

(a) Interest rates

(b) Credit rating of the issuer

(c) Company's stock price

(d) Inflation rate

Select the correct answer from the codes given below:

(1) a, b and d
(2) a, c and d
(3) a and d
(4) b, c and d

85. Which technology is often used in Advanced Driver-Assistance Systems (ADAS) to detect obstacles and enhance vehicle safety?

(1) Radio Frequency Identification (RFID)

(2) Light Detection and Ranging (LiDAR)

(3) Infrared sensors

(4) Ultrasonic sensors

86. Choose the word which is CLOSEST in meaning to the word *REFRAIN*:

(1) Exult
(2) Abstain
(3) Cease
(4) Forswear

87. Choose the word which is OPPOSITE in meaning to the word *TRANQUILITY*:

(1) Lull
(2) Chaos
(3) Torture
(4) Sympathy

88. Choose the right meaning of the underlined phrase:

Please <u>keep an eye</u> on him as he looks suspicious.

(1) Watch somebody unintentionally
(2) Watch somebody carefully
(3) Watch somebody carelessly
(4) to look at somebody for pleasure

89. Direction: Choose the correct word and fill in the blank.

There was a _____ in my bag.

(1) Whole
(2) Whorl
(3) Hole
(4) Whirl

90. Directions: There are five sentences marked as I, II, III, IV and V. The position of I is fixed as the first sentence of the passage. You are required to choose one of the four alternatives given below which would be the most logical sequence of the sentences in the passage.

I. A wounded dolphin, stranded on land must be handled with great care.

II. The animal must be kept wet and cool, or it will die under its own weight.

III. Its fins get crushed under its own weight.

IV. Its tender skin, as fragile as wet paper must be protected from the drying out by applying ordinary cooking oil.

V. Once the dolphin is removed from the water, its body weight becomes its enemy.

(1) III – V – II – IV
(2) IV – II – V – III
(3) V – III – II – IV
(4) II – III – IV – V

91. Please select the best alternative for the underlined expression to improve the sentence in meaning.

Who did you invite to the party?

(1) Whom did you
(2) What did you
(3) Which did you
(4) No improvement

92. Directions: Select the most appropriate form of the word and fill in the blank in the following sentence.

He likes _____ music.

(1) Classic
(2) Classics
(3) Classical
(4) Classically

93. Direction : Read the sentence to find out whether there is any error in it. The error, if any, will be in one part of the sentence. The alphabet number of that part is the answer.

I have come to / know that / his father has died / three days ago.

A B C D

(1) A
(2) B
(3) C
(4) D

94. Choose the best option to fill in the blank and complete the following sentence.

This problem ____ by your brother yesterday.

(1) solves
(2) is solved
(3) was solved
(4) will be solved

A1

95. Choose the sentence which is grammatically correct from the options given.

(1) I am too weak that I can't walk

(2) I am so weak because I can't walk

(3) I am so weak that I can't walk

(4) I have been too weak that I can't walk

Read the passage given below and answer the questions *96 – 99* by selecting the best option.

Passage

Metal Detectors

Metal detectors make magnetic waves. These waves go through the ground. The waves change when they hit metal. Then the device beeps. This lets the person with the device know that metal is close.

The first metal detectors were meant to help miners. They were big. They cost a lot of money. They used a lot of power. And worst of all, they didn't work well. People kept trying to make them better.

Metal detectors got smaller. Now they are light and cheap. They also work better. That is why people bring them back to the beach. They can look for rings in the water. They can look for phones in the sand. Metal detectors also protect people.

They help to keep guns out of some places. They are in airports. They are in courthouses. Some schools use them. They help guards look for weapons.

These devices also make clothes safer. It sounds funny, but it's true. Most clothes are made in big factories. There are lots of needles in these places. Needles break from time to time. They get stuck in the clothes. They would poke people trying them on. They don't though. That's because our clothes are scanned for metal. Isn't that nice? Let's hear it from the metal detectors. They make the world a safer place.

Questions *(96 – 99)*

96. Which was one of the problems with the first metal detectors?

(1) They were too handy

(2) They were less expensive

(3) They worked well

(4) They used lot of power

97. Which of the following best describes the main idea of the first paragraph?

(1) It describes the sounds of a metal detector

(2) It explains how metal detectors work

(3) It warns about the effects of metal detectors

(4) It explains how magnetic waves move

98. How do metal detectors make clothing safer?

(1) Metal detectors make sure factory machines are working the right way

(2) Metal detectors make sure workers don't bring weapons into factories

(3) Metal detectors make sure that broken needles don't get into clothing

(4) Metal detectors help people recover lost clothing at the beach

99. Why do people bring metal detectors to the beach?

(1) Metal detectors help people find valuable items

(2) Metal detectors help people keep the sand clean and safe

(3) Metal detectors help guards keep weapons away from the beach

(4) Metal detectors help in finding bombs

100. Read the sentence and choose the word with the correct spelling from the options given.

The hotel can _____ up to 500 guests.

(1) acommodate

(2) accomodate

(3) acomodate

(4) accommodate
